

Environmental Policy Statement

Niftylift Ltd is a privately owned UK company dedicated to the design, development, manufacture and service of state of the art Mobile Elevating Work Platforms, supplied into a global market place.

Niftylift Ltd is committed to protecting the environment through its activities, products and services by:

- Meeting all the relevant environmental legislation and industry codes of practice.
- Managing the efficient use of raw materials.
- Minimising our energy consumption through measures such as increased energy efficiency.
- Minimising waste by reducing raw material consumption, re-using materials where possible and increasing recycling.
- Managing our facilities in an environmentally responsible manner to prevent pollution.
- Setting objectives and targets for driving continual improvement through the business.
- Ensuring compliance through ongoing monitoring and auditing of our environment policy and procedures.
- Communicating our environmental policy statement to our employees and associates through the provision of awareness training and incorporating environmental issues into the day-to-day running of our business.
- Communicating our environmental policy statement to our service providers and contractors.
- Making our environmental policy statement available on our web site, to our customers and other interested parties.
- Maintaining the Company's environmental management system to BS EN ISO 14001:2015 Standard.
